

Subject: Discontinuation of Industrial Adhesive Products

Dear Valued Customers,

We hope this message finds you well. We greatly appreciate your continued support of our products and partnership with our company.

We are writing to inform you of the upcoming discontinuation of certain industrial adhesive products that have been part of our product portfolio for many years. The decision to discontinue these products has been driven by the increasing challenges in securing the necessary raw materials, which have either escalated in cost or become unavailable. Despite our efforts to mitigate these issues through material substitutions and price adjustments, the long-term sustainability of these products has become untenable.

Given these circumstances, and after careful consideration, we have decided to cease production of the affected products. Please note the following timeline for the last order and shipment dates:

Discontinued Products Details

Product 1 : SC950 / SC970

Final Order Date : End of December 2024
Final Shipment Date : End of July 2025

Product 2 : SC608Z2 / SC608LVZ2

Final Order Date : End of September 2025
Final Shipment Date : End of June 2026

We regret that we are unable to offer direct replacements for these discontinued products. We understand this may pose challenges for your operations, and we sincerely apologize for any inconvenience this may cause. Should you have any concerns or require further information, our team is available to support you during this transition.

We truly value your business and appreciate your understanding during this time.

Thank you for your continued partnership.

Sincerely,
